

Viviana Re

Bir Al-Nas: Bottom-up integrated approach for sustainable groundwater management in rural areas

Research fellow at Ca' Foscari University Venice, [Department of Molecular Sciences and Nanosystems](#) Viviana was awarded a Marie Curie IOF in 2012. Her project, Bir Al-Nas, covered the multidisciplinary study of the quality of groundwater in the area of Cap Bon (North Tunisia). Bir Al-Nas took Viviana for the first two years to the School of Engineering of Sfax and in the third year at Ca' Foscari University at the Department of Science molecular and nano-systems.
