## ECLT and NICHE | Christmas Lecture 2022

# Horizons in the Study of Biosystem Structure and Function: Biology at an Inflection Point Driven by Revolution

## Prof. Margaret McFall-Ngai

Director, Division of Biosphere Sciences and Engineering, Carnegie Institution for Science

The presentation will focus on the current remodeling of biological thought across the spectrum, from biomedicine to ecology, and how it is paving the way not only to an unprecedented unification of often-siloed disciplines, but also to the development of effective approaches for ameliorating critical challenges such as the effects of climate change.
