Ca'рте lab

Do you dream of becoming painters too?
With Ca'рте Lab the dream becomes reality!
In this notebook you can draw, color and play
with the works you have seen and give vent
to your imagination!
Have fun!

Ca'рте Lab is a project of the Department of Philosophy and Cultural Heritage of Ca' University Foscari Venezia which brings together all the activities and workshops connected to the exhibitions. A permanent space dedicated to teaching with specifically designed programs made for art exhibitions hosted within the University's exhibition spaces. The chosen methodology excludes learning notions but instead encourage a creative relationship with the artistic universe through incitement aroused by the works on display. Artworks are used not as passive knowledge, but as a pretext for a direct and creative involvement linked to artistic and contemporary “making” processes.
