- 2 landline telephones connected to the telephone hybrid (installed above the A/V rack)
- Digital audio recorder (technical support is required)

VIDEO PROJECTION

- 1 Ledwall 130" Full LED screen 288 x 162 cm
- Wireless mirroring unit for A/V transmission of a connected PC (can be used in the presence of a technician)
- Table-top 7" touch-panel for electric room management

The device consists of two PC modules with a type C interface (with USB A adapter)

1 laptop with wired network access (access allowed only with @unive.it credentials) available to speakers

A/V LIVE STREAMING AND VIDEOCONFERENCING

The room is not equipped with either a multimedia streaming encoder or a videoconferencing system.

- There is an audio conferencing system via AEQ TH 02 EX 2L telephone hybrid (service on request).
- It is possible to use the videoconferencing software installed on the PC (Zoom, Skype, Meet, etc.) with the microphone and camera integrated into the laptop.
- PTZ camera with the possibility of zoom, different framing and auto-pointing
- A/V acquisition peripheral (CAM+Audio) via USB, installed on the room laptop, which allows

video conferencing to be managed autonomously

LIVE STREAMING

The room's multimedia system is not set up for live audio-video streaming, except using the videoconferencing software installed on the PC (Zoom, Skype, Meet, etc.).

Control room station (can only be used with a technician)

From the control room station, it is possible to manage several PCs simultaneously, videoconference, and point the camera in the room.

- The system is also set up for transcribing speech into a computer document.
- Through the digital conference system software, the technician can manage the individual microphones in use.

OTHER AVAILABLE SERVICES

- Internet access
 - Wi-fi (upon request)
- Integrated control system:
- The room is equipped with an integrated multimedia equipment control and management system. The multimedia equipment is activated and managed through a 10" colour touch panel with a simplified graphic interface (WYSWYG).
 - The touch panel controls:

- Voice amplification with 24 table microphones and 2 telephone lines;
 - Voice amplification from various sources;
 - Video projection in Full HD 1920x1200 format with sound amplification, from a laptop connected to one of the 2 panels;
 - Video projection and sound amplification from an analogue or digital source connected to one of the 2 panels (the panel on the "chairperson's side" is equipped with a VGA+audio outlet only, the other with a HDMI outlet only).
 - Multimedia equipment is optimised for meetings
- Simultaneous Interpretation: Digital TD control console for 4 languages
